Elaine,

The WDFW contact is Sandra Jonker: Sandra.Jonker@dfw.wa.gov. I don't have a phone number for her, but I believe she is in the Vancouver, WA office.

Also, I looked over some of our comments and was reminded that our fish division folks have concerns about the way the cormorant predation is characterized. They believe it is a symptom of the hydro system and that the magnitude of predation is exaggerated. We did not go into this in depth at the meeting this morning, but we did agree that we need to include a comment such as this in order to stay consistent with our comments on other Columbia River projects. So I hope I can use this as an opening to accomplish what we discussed on the phone.

Thank you,

Lindsay

Subject: contact info

Hello, Lindsay,

Thank you so much for taking time to speak with me today – it was so helpful! My contact information is listed below. By the way, do you know who has been the WDFW contact for the Cormorant project? If so, may I obtain the contact information for that person?

Thank you again!

Elaine
